Verse 1

-----

**G**                    **D**                    **C**  
Durere adanca ascunsa de zambete false  
**G**                    **D**                    **C**  
Timp pierdut varsand lacrimi de matase  
**G**                    **D**                    **C**  
Adevar urat ascuns de minciuni frumoase  
**G**                    **D**                    **C**  
Cu ochii-nchisi visand la clipele ramase

Chorus

-----

**Em**       **G**       **D**                    **C**  
Suflet trist ranit dar greu de ucis  
**Em**       **G**                    **D**                    **C**  
Lacrimi fara glas, e tot ce-a mai ramas

Bridge

-----

**D-C-D-C-G-D-C**

Verse 2

-----

**G**                    **D**                    **C**  
Te uiti la el si nu-l mai recunosti  
**G**                    **D**                    **C**  
Nu-ti mai amintesti nimic din tot ce-a fost  
**G**                                    **D**                    **C**  
Ar vrea sa-l ierti dar n-are niciun rost  
**G**                    **D**                    **C**  
visul tau perfect e acum pe dos
