couldn't find these chords anywhere, so i listened and they're pretty simple with syncopated timing. any I, IV, V chord combo works so switch it up for your voice. there's some action going on on the 1st string that i can't really duplicate with my ukulele, a few listens to the song should be able to sort out the details. cheers.

intro: **G D**

v1:

G

do you know do you know

i've been thinking about you
