Pre-chorus 1

Chorus 1

Couple of side-notes:

- Thanks to http://kumikyoku.rintaun.net/wiki/Airman_ga-Taosenai for the lyrics!
- The intro chords may not be right, but they re what I use when I play on the acoustic.
- Everyone after the first chorus is iffy. I mean, the chords are alright, but the placement is idk because I haven t memorized the lyrics yet that far... lol. Use

the youtube links below for the timing. P:

- And last, but definitely not least, thanks to project-Delta for making the awesome song.

P.S.: This is my interpretation of the song, and it sounds pretty close, imo - if

anyone has comments/suggestions/improvements, feel free to comment. P:
