```

          C#m          A          E          B
You said the timing wasn t right, It was perfect in my eyes.
          C#m          A          E          B
And the touch was never on, I guess I ll say you led me on.
          C#m  A          E          B
But tell me why I couldn t find out,
          C#m  A          E          B
The Reason I could never let this go.
```

```

          B *stop*          E
So tell me how this works,
          B          C#m
You re so addictive I am lost and insecure.
          A
So come and end these nightmares.
          E          B
I m hanging by a thread, But holding on so tightly.
          C#m          A
I ve never been this scared, I m letting go tonight.
          B
This is do or die.

          C#m          A          E          B
You said the timing wasn t right, But I was so lost in your eyes.
          C#m          A          E          B
And I could never leave, So shut your eyes and set me free.
          C#m  A          E          B
And tell me why I couldn t find out,
          C#m  A          E          B
The Reason I could never let this go.
