Intro: G D Csus2 G D G

```
G                D
When time has passed me by,
                Csus2                G
I sit here late at night and think of you.
                D
When all hope seems to go,
                Csus2                G D G
you wanted to know if I need you.
```

```
C#                G#
Looking at you now,
C#                G#
We ll find a way somehow,
C#                G#
to make it back to good.
F#                G
I would starve our problems if I could.
```

```
G                D
Think of the life we d have,
```

**Csus2**

where nothing makes us mad,

**G D G**

we d have it all.

**G** **D** **Csus2**

I d give up everything to make it what we mean,

**G D G**

I d give it all.

[Chorus]

[Intro]
