Keep It Simple- Simple

(Played in Bar Chords) Standard Tuning

**C**                      **B**      **G**              **Am**                      **E**  
Wonderin how the world got to where it is today

**F**                      **G**                      **F**                      **G**  
Can t imagine how fast it happened but it happened anyway

**C**                      **B G**                      **Am**                      **E**  
So much evil in the money, people caught up in their power

**F**                      **G**                      **F**                      **G**  
The evil grows and multiplies until our final hour

Chorus:

**C**                      **B G**                      **Am**                      **E**  
You gotta keep things simple, stop worryin all the time

**F**                      **G**  
Cause lifes too short takes years to sort

**F**                      **G**  
The troubles in your mind

**C**                      **B G**                      **Am**  
So your re sad your stressed you need a rest you despair throughout your

**E**  
dreams

**F**                      **G**                      **F**                      **G**  
Well maybe life is a little nicer than you think it seems

**C**                      **B G**                      **Am**  
Just take a breath forget all the rest Its just you and the thoughts you

**E**  
think

**F**                      **G**                      **F**                      **G**  
Get in the water and swim away before the whole ship sinks

Chorus:
