

Steven Georgiou - I Didn't Know It Was Love
Misc Unsigned Bands

Intro **Eb Bb Bm G#**

The first time I saw you
I didn't know it was love
Until you showed me
What the true meaning of love is

We've been happy for a while
Didn't notice what could come
Never thought of anything else
But you, and only you

I've been such a foolish man
You've been hurt, yes I was there
Trying to comfort you as my little sister

So much time has passed
I didn't notice you were hurt again
But this time it's because of me

I wasn't mature enough to understand things
Sorry for being so stupid

Chorus **Bb F Gm Eb**

I was so happy about the link
That they have given upon us
But we both know we can't be together
Until you're fed up, you've let it go

Now I realized how much I love you
I'm trying to get to you
But it's too late
It is just so late

Instrumental **Gm Eb Bb F**

I just want you to know
That even though you've moved on already
I really love you so much
Remember that I'm always here for you

To be your friend
To be your brother maybe
To be a good listener too
