Sydney Day - In The Dark
Misc Unsigned Bands

This is a song I wrote!

Capo 3

Verse 1

```
Am                              C
I donâ€™t want to wait around for something
G                       Em
That aint never gonna come
Am                      C           G
I donâ€™t want to be that girl anymore.
Am                              C
The one that sits around by the phone
G                       Em
Waitinâ€™ for your call
Am        C        G
No, I canâ€™t anymore
```

Chorus

```
Am                              C
So tell me baby, open up your mind,
G                               Am
Am I yours, and are you mine?
Am                              C
No I canâ€™t take it, standing here alone
G                       Em                      Am
Please tell me now, donâ€™t leave me in the dark
C               G               Em
In the dark, in the dark
Am
Donâ€™t leave me in the dark
```

Verse 2

```
Am                              C
I know that you said that you want me
G                       Em
But havenâ€™t you heard?
Am              C           G
Actions do speak louder than words.
Am                      C
And Iâ€™m really sick of playinâ€™ games,
G                       Em
Donâ€™t tell me you arenâ€™t, too.
Am              C               G
```

I need to know what's fake and what's true

Am   **C**
Weren't you the one who told me

G   **Em**
Men could be cruel?

Am   **C**   **G**
I guess I didn't realize you were talkin' bout you.

Am   **C**
I wish you'd prove me wrong, don't be gone,

G   **Em**
Break the routine

Am   **C**   **G**
Then maybe, I'll believe

Chorus

Am   **C**
So tell me baby, open up your mind,

G   **Am**
Am I yours, and are you mine?

Am   **C**
No I can't take it, standing here alone

G   **Em**   **Am**
Please tell me now, don't leave me in the dark

C   **G**   **Em**
In the dark, in the dark

Am
Don't leave me in the dark

Bridge

Am   **C**
I'm starting to think this is a one way street

G   **Em**
I'm feelin' you, but are you feelin' me?

Am   **C**
I want to believe the words you say to me,

G   **Em**
So baby show me, show me

[Chorus]
Am   **C**
So tell me baby, open up your mind,

G   **Am**
Am I yours, and are you mine?

Am   **C**
No I can't take it, standing here alone

G   **Em**
Please tell me now,

Am   **C**
Stop disguising what you already know

G   **Em**   **Am**

There’s no use, don’t leave me in the dark
C   **G**   **Em**
In the dark, in the dark
Am
Don’t leave me in the dark
C   **G**
In the dark, In the dark
Em
Don t leave me in the dark
