

**Ted Lucas - Its So Easy**  
**Misc Unsigned Bands**

Hi people,

for my first try at it i ve picked this song for it is not yet available  
and yet some do seek it

So two chords you need

**A E7**

each note is single picked using thumb index middle index repetitively  
doing that while instead of cramping up on the whole chord E7 you move your  
left hand middle finger from 5th string to 4th string as you play your  
bass right hand thumb

The high note just before the pre chorus silence i make by barring the A with  
my index and putting my pinky on 1st string and picking it with right hand  
ringfinger

I hope you moderators ad the blue chord pop-up thingy because i dont see how yet

thanks

Dave
