-alone-

(v)-i cant find a way to sleep, so i guess ill just surrender, and let this town have  
way. if i just took time to breath, i could hear olâ€™ hank a warnin...not to go  
down this way.

(v)-the bars are open wide, and your friends they lie in waiting..on this ive  
leared i  
rely. they are plotting as they dance, hiding fraud within their smiles. kiss  
and hug  
knives in hand

(c)- spitting lies, just to find...theres a reason why weâ€™re never satisfied.  
from the  
walk home, to the reasons why we go to bed alone

(v)-hey this whiskey must be broken, cause it aint hardly working to erase her  
from my  
get on up and stumble home as the vultures plot behind you..to pick the meat  
right from  
bones

(b)- oh god..my soul, my life, please dont let her see that im falling apart.  
the  
burn so bright, and all the way home they remind me of..the night she stole my  
heart.
