

The Fallen Drakes - Girl From New York
Misc Unsigned Bands

Hi :)

Well, this is one of my favourite songs by The Fallen Drakes who aren't very well known at the moment, and I realized the chords for this song weren't up so I worked them out myself!

I've seen in the acoustic music video they use a capo on 2 but I worked it out without a capo, and I think it's easier like this.

I hope you enjoy it! :)
