Change My World Acoustic Chords

Artist: Freshwind Band

Song: Change my World

Tuning: Standard

The Freshwind Band is a group of wicked people that lead worship for a conference called at the TACF church in Toronto, Canada. Unfortunately, even though I ve been trying to into contact with Jon Long (acoustic guitarist), I havn t been able to get a solid copy the chords for this song so I had to do the chords by ear. So it could be a little off, haha.

Anyways, this makes an amazing woship tune and is very powerful.

I tried to find some of the chords, but I didn t know their names...so I improvised.  
here it is.

You ll have to listen along with the song for timing. But if you ve never been to then there s really no way you can get a copy of the CD I don t think...which sucks. Ah well,  
I ll put it online someday.
