The Heavenly States - Berlin Wall Misc Unsigned Bands

I wanna live by the fireside

all the friends we make we ll cook em and we ll eat em up

when the wind blows up those sparks will rise

Song: Berlin Wall Artist: The Heavenly States Album: Oui Camera Oui NOTE: I actually don t know if the Heavenly States are unsigned. They just weren on here so I put them in that category. G C I wanna live by the Berlin Wall D in the shadow and the ruins of a hallowed hall a black hawk history a mirror ball a place that tells me there s no tower that can t fall I wanna live by the Berlin Wall G C I wanna live by the Berlin Wall I wanna dream a dream that had a life and already died G it s a dream about a real live war C G we re in a bunker and we re dancing on a dirt floor when we get well they sell another magic spell G when we get well we ll see if we still believe G C G D C G G I wanna live by the fireside don t wanna dream a dream that had a life and already died in my dream we will have made it through no talk of memories no future to pursue I wanna live by the fireside

we recognize a friend and call him out of his disguise no I won t kiss the ground some monument some crime and I won t be around forever for all time when we get well they sell another magic spell and then we ll see if we still wanna be ourselves
