A
A

Verse 1

Here we are tell your friends
Pause for a minute and start again
The party it'll never end
When you're jamming with The Lamms now
Kick off your heels turn it up
Doom and gloomers out of luck
You've got the swagger now the strut
Coz you're jamming with The Lamms now
Leave inhibitions at the door
Forget all that has gone before
The rhythm you just can't ignore
When you're jamming with The Lamms now
Fill your glass get the beers in
Look at that bird flash her a grin
Don't stop until your heads a spin
When you're jamming with The Lamms now

Chorus

You're jamming with The Lamms now (freestyle)

Verse 2

Those who cast an evil eye
They're from the past like Marty McFly

Time is ticking but the music wonâ€™t die
When youâ€™re jamming with The Lamms now
People shoot a dumfounded glance
But hear the music and start to dance
Before you know theyâ€™re in a trance
And theyâ€™re jamming with The Lamms now
So hear the rhythm of the night
This is the rhythm of your life
Forget the worries and all that strife
Now youâ€™re jamming with The Lamms now
Ignore that bell for closing time
Getting lost in the music ainâ€™t no crime
The bells in your heart will start to chime
When youâ€™re jamming with The Lamms now

Chorus

Verse 3

All those around you start to stare
But theyâ€™re with you so donâ€™t you care
Throw your hands up in the air
Youâ€™re jamming with The Lamms now
Press repeat restart the track
Pain is gone good times are back
Lay highs and laughter in your sack
Youâ€™re jamming with The Lamms now
The person who you want the most
Get them fast and grab them close
Shy days are gone and now a ghost
Coz youâ€™re jamming with The Lamms now
Look at yourself deep inside
Donâ€™t forget you didnâ€™t hide
Keep that head high and your pride
Coz youâ€™ve been jamming with The Lamms now

Chorus

(Taylor & Ladbury 2012)
