Verse 1

There she walks, away from me  
I find my thoughts, turn to dreams  
She s just a girl, this girl she could be mine

I talk all the time, not sure I should  
I long for a girl, who knows I m good  
Maybe this girl, can turn my world around

Chorus

She is love, electric too  
She lifts me up, when I m blue  
When it is dark, her colours shine  
Light my world, please be mine

Verse 2

Some might say, when hope is gone  
That out of the many, comes the one  
All that I know, this girl she could be mine

All that I need, all that I know  
She has me hooked, she makes me glow  
Got to be near her, where I need to be

Chorus

Verse 3

There she walks, away from me  
I call out her name, she turns back to me  
She s just a girl, this girl she could be mine
