Verse 1

Looking at the world around me  
Its hard not to feel despair  
Living like smacked up Zombies  
Insensitive and dont really care  
Where did it go wrong? Where has compassion gone?  
These questions haunt me in my sleep  
In the society of broken dreams...

Chorus

Society of broken dreams  
Society of broken dreams  
Society of broken dreams  
Society of broken dreams

Verse 2

Politicians with suits and smiles  
Looking dapper smarmy and flash  
Claiming to represent us  
Then they go and nick our cash  
Where did it go wrong? Where has compassion gone?  
These questions haunt me in my sleep  
In the society of broken dreams"

Chorus

Verse 3

We look to the young to save us  
But fill their heads with irrelevance  
Failing to show empathy  
Walking around in a vacant trance  
Where did it go wrong? Where has compassion gone?  
These questions haunt me in my sleep  
In the society of broken dreamsâ€|

Chorus

Verse 4

Maybe one day a revolution  
Will bring around a mighty change  
We will look up to artists and scholars  
Rather than celebrities and others deranged  
Until then we will live in a world that never gives  
Only mankind can bring destruction  
To the society of broken dreamsâ€|

Chorus
