Verse 1

What a life is was  
The world we found outdoors  
The place where all our dreams took form  
The calm before the storm

We were dancing in the rain  
Calving out our names  
Time flew by like a runaway train  
The memory remains

Chorus

Take me back  
To that time  
Take me back  
Take me back tonight

Verse 2

The street life beats the box  
The pavement to the field  
Kissing, smoking, taking knocks  
Take a walk to the shops

And what a life it was

Our parents had no flaws  
Our heroes filled our bedroom doors  
Replaced by empty walls

Chorus

Verse 3

I reminisce sometime  
Remember once in a while  
I see the youth locked up inside  
Wasting precious time

The light of days gone by  
The world we found outdoors  
We take it with us in our lives  
And what a life it was!  
And what a life it was!!  
And what a life it was!!!
