Sorry about those things I said before

C

G

D

C

One day you ll realize

G

How sorry I was that you had to go

Then just continue with the rest of the lyrics ;)

Take away the sun, you can t see no moon
Take away the sun, you can t see no moon
Need the one to see them both
Need the one but now you know
Take away the sun, you can t see no moon

Knew that you had to leave me
But I m sorry that you had to go so soon

And I wish I could turn these days to weeks
I wish I could turn these days to weeks
But I cannot stretch them so
But I can t so now you know
I wish I could turn these days to weeks

Be alright when you re gone
But I m sure gonna miss your sunny cheeks

People like to like the ones they love
People like to like the ones they love
But you love me and if you don t
I love you but now you know
People like to like the ones they love

Don t like to think a lot
But you re the one that I m always thinking
You re the one that I m always thinking of

Don t like to think a lot

But you re the one that I m always thinking of
