

Troy Leenards - Look My Way

Misc Unsigned Bands

G- 320033

C- x32010

F- x33210

Am- x02210

**Am**                    **F**                    **C**                    **G**  
I see you with him as he wastes your time,  
**Am**                    **F**                    **C**                    **G**  
while I wait for the day when I might call you mine.  
**Am**                    **F**                    **C**                    **G**  
But you can t see that he doesn t care for you,like I do.

Your eyes are all red, you ve been fighting again,  
but you won t confess to the rest of your friends,  
but they can all see that he doesn t care for you,like I do.

Chorus

**F**                    **C**                    **G**  
If I could call you mine for just one day,  
**F**                    **C**                    **G**  
if only you had the time to look my way.  
**F**                    **C**                    **G**  
If I could call you mine for just one day,  
**F**                    **C**                    **G**  
if only you had the time, to look my way.

To everyone else it s not a surprise,  
when he leaves you for her cos she s got nicer eyes,  
because you couldn t see that he didn t care for you,like I do.

Chorus x1

**Em**                    **Am**                    **C**                    **F**  
Cos nothing lasts forever, just like he said,before he went on his way.  
**Em**                    **Am**                    **C**                    **F**  
But we could be together, if only you want me to stay.
