

**Twopointeight - Red Eye**  
**Misc Unsigned Bands**

Chords:

**D** (000232)  
**G** (355433)  
**F#m** (244222)  
**Bm** (224432)  
**G5** (577655)  
**Em** (022000)  
**A** (002220)

The whole G5 part isn't very accurate, but it's what I came up with and I think it sounds okay.

It's pretty much just the same thing through the whole song.  
Just switch the strumming during different parts to fit the song and it sounds pretty good.

The parts between the chorus and the verses I am very uncertain of. I play it like this:

**G5 G F#m Em A**

This is the first tab I've written that's 100% ear transcribed so I'm not very good at it. Anywho, enjoy.
