Verse 1

```
D                Bb                C                D
In the day we fight it out selling our souls to the gods of IT & high finance
D                Bb                C                F

D                Bb                C                D
We don t want to annoy the neighbours so we turn up the amps to 7
D                Bb                C                F
Then we sing & play like its the end of days But make sure knock off by 11
```

Yes we rock til we get the chords just right
