Wrestlerish - Oliver Tambourine Misc Unsigned Bands

Big up to AloneAndUnknown on Youtube for working this out - I m just tabbing her chords here.

Capo 2nd Fret (but you can play it without if you can t sing as high as Werner)

The chords he uses are just F#, Ebm, Cadd2 and F/C#.

I use the add2 cos it s much easier to get to the $\mathbf{F}/\mathbf{C}\#$ from it in the chorus, but

they both sound ok You can play the proper open C but it s a lot easier to use these the Cadd2 and these ones:

	F#	B (add2)) Ebm	F/C#	ŧ								
e:	0	0	0	(2)	(but	I	just	leave	it	open	or	mute	it)
в:	3	3	3	3									
G:	0	0	0	2									
D:	0	2	2	0									
A:	2	3	2	0									
Ε:	3	x	0	2									

Then for his little intro riff (and pretty much whenever he plays a G) he just plays the G and does this:

e:-0-0-

B:-3-3-

G:-0-0-

D:-0-0-

A:-0h2-

E:-3-3-

And then strums the G and fiddles the high strings. Most of the melody comes from the bass.

With the lyrics now:

VERSE:

Ebm

If nothing ever really dies then

B F#

why do I feel barely alive?

Ebm

If we re only living for second tries then

B F#

baby surely I should spend the night

CHORUS:

```
Ebm
You should speak your mind,
and I could be a nicer guy
    F/C#
If I tried
Ebm
You could be just fine,
hanging on those lines
but I would die
F/C#
before I let you take me alive
BRIDGE:
(Just C and G, and sometimes he does the hammer-on on the {\bf B})
В
                 F#
And I d give anything
To wake up next to you again
Then it s just the chorus again...
```
