

Carol Kennedy - Come Away

Misc Your Songs

[Verse]

I love the sun, it slowly rises, at the start of each day
I hear the eagle in the garden, come away, come away
I love the moon, high in the dark sky, where the bright stars all play
I hear the owl in the deep wood, come away, come away

[Chorus]

So come away with me now, dear friend away with me now
Walk beside the quiet waters of this fair island, come away, come away
And leave your sorrows a-lone, dear heart there s sorrow I know
Laugh and sing about the stories of this fair island, come away, come away

[Verse]

I love the trees, trees of the forest, for stand tall and pray
I hear the bluejay, she is laughing, come away, come away
I love the wind out in the ocean, love the taste of salt spray
I hear the seagull, she is crying, come away, come away

[Chorus]

So come away with me now, dear friend away with me now
Walk beside the quiet waters of this fair island, come away, come away
And leave your sorrows a-lone, dear heart there s sorrow I know
Laugh and sing about the stories of this fair island, come away, come away

[Verse]

I love the silence of a snowfall, the sound of rain on my roof
And I m so thankful for each moment that I spent here with you
I love the river running freely, days of green, days of blue

And I give thanks for each moment that I ve spent here with you

[Chorus 2] Ñ...2

So come away with me now, dear friend away with me now

Walk beside the quiet waters of this fair island, come away, come away

And leave your sorrows a-lone, dear heart there s sorrow I know

Laugh and sing about the stories of this fair island, come away, come away

[Outro]

And I give thanks for each moment, that I ve spent here with you
