Eric Shaw  
Chattanooga

[Verse 1]

**G**  
Driving up the mountain, stepping to the edge  
**Em**  
I can see seven states, standing in one place  
**C**  
It s been a while since I felt  
**D** **G**  
The peace that only comes from coming home  
**G**  
I can see the downtown lights and the river winding through  
**Em**  
The little red church in the valley where I first learned the truth  
**C** **D** **G**  
And I m flooded with the memories I thought that I d forgotten long ago

[Verse 2]

**G**  
Football games on Friday night  
**Em**  
Driving backroads in the moonlight  
**C**  
We thought that we were grown  
**D** **G**  
We were just fine getting by with what we didn t know  
**G**  
June nights on the Riverbend  
**Em**  
Drinking warm beers that we snuck in  
**C** **D** **G**  
Watching my heroes on the stage, swearing to myself that would be me one day

[Chorus]

**Em**  
On the banks of the Tennessee  
**G**  
In the shadow of the pine trees  
**D**  
It s where I learned who I am

How to walk how to be a man  
**G**  
You know that s home to me

I never thought that I could leave

The road of life may change but the roots we plant don't fade

I can always find my way
