F# F#sus4

It's a face that I know

Bm F#

Better than anyone

F# F#sus4

Though I haven't seen you

Bm C

Since last year in the sun

F# F#sus4

Hope that I can pass you

Bm F#

Nod my head and smile

F# F#sus4

You turn around and say

Bm C

Where you been all this while?

(now keep playing the same chords for the other verses)

Tell you I've been walking
Through the streets of my mind
Asking if you are real
Or just a memory to find

It's a different mindset
The good and the truth
While guns are still around me
I'm dreaming of a truce

C#m7 Bmaj7

Walking up on Honey Hill

C#m7 Bmaj7

I wanna see you there

C#m7 Bmaj7

You're gonna see my emotions spill

C#m7 Bmaj7

Cos this is all too rare

F# Bm

Gonna see you there

F# Bm C x2

When your phone ain't working

I donâ€™t know where to turn
And when my heart is broken
Iâ€™ve got a lot to learn

Is this all Iâ€™m made of?
Melodies and guitars
My friends light up the night sky
But youâ€™re my shooting star
