Tabbed by: Dami (Dee Ay)
Email: dademidun@gmail.com

Tuning: Capo 1 (Standard Tuning)
Guitar Type: Acoustic

Chords you will need: **D A C G**

Strumming pattern: Can be heard most easily in the very last 3 lines of the song where most instruments except guitar cuts out, so check that out!

Intro: D A C D A - For intro, I find picking just root notes sounds best. For rest of song strum the chords though.

D **A**
I remember it like yesterday, kinda easy to recall
C
I wasn t taken, and I wasn t looking,
D **A**
Had no reason to even say hello at all

D
But then this angel smiled at me,
A
And something about it stuck with me
C
I looked back and thought of what to say,
D **A**
But then I kept on walking the other way

D
But the thought of you stayed on my mind
A
Now I think of that moment time after time
C **D**
I just wish I could press rewind so I could
A
If I had another chance to say
D
If I said hello, hello girl,
Hello, hello girl

A

Coulda been your fellow, fellow for
Fellow, fellow for that girl

C

Though it s over now for us,

D

A

But I wish I could turn back the hands of time and say

D

If I said hello, hello girl,
Hello, hello girl

A

Coulda been your fellow, fellow for
Fellow, fellow for that girl

C

Though the moment s passed for us but girl,

D

A

What if I said hello

D

Now I often think about what could have been,

A

After what happened we d have probably been crackin,

C

I coulda been your man, you woulda been my girl (uh)

D

A

We woulda been sharing, everything in my world now

D

They say nothing fails but a try,

A

But I didn t try, so I let ya slip by

C

D

A

Ohhh but you got away, and I can t stop thinking bout that day

D

And now the thought of you stays on my mind

A

Cause girl I think of that moment time after time

C

D

I just wish I could press rewind so I could

A

If I had another chance to say

D

If I said hello, hello girl,
Hello, hello girl

A

Coulda been your fellow, fellow for
Fellow, fellow for that girl

C

Though it s over now for us,

D

A

But I wish I could turn back the hands of time and say

D

If I said hello, hello girl,
Hello, hello girl

A

Coulda been your fellow, fellow for
Fellow, fellow for that girl

C

Though the moment s passed for us but girl,

D

A

What if I said hello

G

A

Wherever you are, whatever your doing girl

*Apologies if any of the lyrics are incorrect, I wrote them out myself by ear,
and may
have misheard a word or two. But for the most part, the lyrics should be all
correct I believe.
