```
E                      G#m   C#m         B                        A
  I want to close my eyes       and fall just straight to sleep
E                      G#m   C#m         B                        A
 Or maybe I should die        â€˜Cos my future looks too bleak
  F#m         C#m                   E   B                F#m
So donâ€™t try telling me everythingâ€™s ok.       â€˜Cos itâ€™s not ok
   C#m                            E     B            F#m          A
I cannot sleep; they say itâ€™s all in my mind. Yeah, itâ€™s all in my mind
E                            B             F#m
   So give me a little sunshine. To chase away the rain
A            B
    And a little pain maybe
E                            B             F#m
  So give me a little sunshine. To chase away the rain
   A          B              E
And stop me being tired and tired again
                 G#m   C#m        B             A
I wish I could just fly.       Away from everyone
E                      G#m   C#m         B                A
  And I wish I could just hide.      To where no-one but me comes
  F#m         C#m                   E   B                F#m
And donâ€™t try telling me everythingâ€™s ok.       â€˜Cos itâ€™s not ok
   C#m                            E     B            F#m          A
I cannot sleep; they say itâ€™s all in my mind. Yeah, itâ€™s all in my mind
(Hold A)
Somebody come and help me, now
E                            B             F#m
   So give me a little sunshine. To chase away the rain
A              B
    And a little pain maybe
E                            B             F#m
  So give me a little sunshine. To chase away the rain
    A          B              F#m
And stop me being tired and tired again
         E                    F#m
```

When you fall inside of a twisting slide.
```
                      C#m           B    F#m
```
It's like you're never gonna get off
```
          E                        F#m                    C#m           B      A
```
And they tell you twice it'll be alright But it's never gonna be enough
```
   F#m        C#m                    E    B              F#m
```
So don't try telling me everything's ok.   'Cos it's not ok
```
    C#m                          E         B              F#m          A
```
I cannot sleep; they say it's all in my mind. Yeah, it's all in my mind
```
E                          B              F#m
```
    So give me a little sunshine. To chase away the rain
```
A                B
```
      And a little pain maybe
```
E                          B              F#m
```
   So give me a little sunshine. To chase away the rain
```
     A            B              E
```
And stop me being tired and tired again

(Outro is the same as the chorus with "oh"s over the first set.)
```
E          B          F#m          A          B
E          B          F#m          A          B
```
