

Wild Thing
Misty Miller

The tabs were made for ukulele, but they ll also work for guitar (because that s how these things work).

C

Wild thing

Em D F

I ll eat you up into something new

C Em

You ll say last night in my room

D F

A forest grew and grew

C

Until the walls were green

Em D F

And from the ceiling fell vines

C Em D F

And you lay there wishing your world was mine

C

Em D F

You jumped into a boat and sailed out very far

C Em D F

For weeks and years until you came to where the wild things are

G F C Cmaj7

And they roar, and they roll, and they claw with their terrible eyes

G F

Be still you will say and they ll fall

Cause you re the wildest of all

C Em D F

C Em D F

There s a wild thing inside of our souls

C Em D F

And a sense of home from young to old

C Em D F

Inside of each of us there is a hidden child

C Em D F

All you have to do is learn to be wild

And they roar, and they roll, and they claw with their terrible eyes

Be still you will say and they ll fall

I am the sun

I will rise and I ll set

But you re the brightest thing that I ever met

C Em D F C
