

## Even On The Worst Nights Mixtapes

Into: **A E D E**

Verse:

**A E D E**  
Pretty mess on the west, I smile at her sight  
**A E D E**  
She loves the Ergs, vegan food, oh, never mind  
**A E F#**  
She s the kindest girl you can find  
**D E**  
Oh, I miss late nights, late parties  
I don t get around  
**A E D E**  
It s the way that I never really even cared  
**A E D E**  
Stayed up late just to catch that movie premiere  
**A E F#**  
And I m aware that it s hard to escape  
**D**  
So we got stuck in a rut  
**E D E**  
Now it s all catching up and pretending you relate

Chorus:

**A E D E**  
Hey, we just don t surrender  
**A E D E**  
It s hard to talk about it when you don t remember  
**A E D E**  
And I think that even on the worst nights  
**A E D E**  
It tends to be alright  
**A E D E**  
I guess it will be alright

(Same as first verse)

I passed out on your couch for a little while  
And realized half my life has been in denial  
But these nights when we stare at the sky and talk about our lives  
They made me want to try  
I drove around as if to force conversation  
We ended up by the river if I m not mistaken  
But I digress, I was out of my mind  
So when it s brought up, I ve gotten good at lying

Bridge:

**A D F# E**  
I think this place looks better in the rear view

**A D F# E**

I miss my friends, though I really didn't need you

**A D F# E**

We won't go down without a violent fight

**A D F# E**(ring out)

This song's about every single thought that I've ever had

**D**(ring out)

Every single thought that I'd like to take back

**E**(ring out)

I know it doesn't work like that

**D**(stop)

And half the time, it doesn't work

Chorus:

Hey, we just don't surrender

It's hard to talk about it when you don't remember

And I think that even on the worst nights

It tends to be alright

I guess it will be alright

Hey, we just don't surrender

It's hard to talk about it when you don't remember

And I think that even on the worst nights

It tends to be alright

I guess it will be alright
