Artist-Moe
song-St Augustine (Headseed Version)

Intro:
Hit **F**

```
--1---
--3---
--3---
--2---
--1---
--1---
```

a few times softly, louder each time

then go to G-->Bm7

Here are a few forms of each chord

G: **Em:**

```
--3--3--3------     --0-------
--2--2--5------     --2-------
--0--0--5------     --2-------
--0--0--4------     --0-------
--0--3--3------     --0-------
--3--3--3------     --0-------
```

Bm7:
```
--2--7-----
--2--9-----
--4--7-----
--2--7-----
--3--7-----
--2--7-----
```

The first form of each chord seems to sound the best, but the bar G and the Bm7 at
the 7th fret seem to be
the easiest progression to play. Fool around with the combinations and find out
which works best.
