Verse chords:

B5 x2440x
Asus2 x0240x
G 32040x

Chorus chords:

A5 x022xx
E5 022xxx
G5 355xxx
F#5 244xxx

Intro: **B5 Asus2 G Asus2**

B5	Asus2	G	Asus2
A little bit more than you		ever wanted	
A little bit more than you could		ever say	
Did you really think that		I'd forgotten	
Kicked in the windshield water comin in,		fade away, fade away	

(I'm not sure where they go in relation to the lyrics,
but the progression is **A5 E5 G5 A5 E5 F#5**)

Chorus:

Push just a little too late
Is this what you want, what you need
What you wanted me to be
Always loved strapped to you
Lock it down and drive me through, oh

Solo starts as some riffing on the B string (a lot like
Shake My Tree by Coverdale/Page) 3rd & 5th fret stuff.

That's the best I can do without my guitar. Lyrics come with
the CD. BUY IT. Excellent CD.

I saw them live - excellent show - lots of energy, and they
sound DAMN good.

Leave your pinky finger on the G-string s 4th Fret throughout and it gives you that droning effect throughout. There is some kind of hammer-on or pull off in there some where but I don t know how to plat it.

My guitar teacher, Denis Hammerstedt showed me the basic chord progression, and then I also used a tab by some Mark guy to tab this out.
