

Over Over
Moloko

C **Am** **Em**
No I won't interfere
C **Am** **Em**
I'm the only sound you'll ever need to hear
C **Am** **Em**
Listen to my breathe so near
C **Am** **Em**
Allow me to be every noise in your ear

C
Since that day I wake up early
Am
Every morning which is good
Em
But my stomach's churning, call me,

It would be nice if you could

C
Some days I question

The suggestion
Am
You might not exist at all
Em
Can we meet and talk it over

Would you be kind enough to call

C
Over and over
Am
It's over all over
Em
And over and over and over

And over.....

No there's no middle ground
You're off in another story
Or merry-go-round

No there'll be no measured terms

You fly in the face of the way the world turns

Like a frozen tidal wave
Since that day I m standing still
You brought me here and I accept
Though you regret I never will

Just one sweet word
And then a smile from you
Is almost worth everything
I ve given all I had to give
But you gave up giving in

You are everywhere I go
All the places we have been
I can t imagine where you are
For you are all I ve ever seen

Over and over.....

All I ve ever known
All I ve ever seen
Places that I go
Places that we ve been
