

Lonely And Gone
Montgomery Gentry

I can't believe I finally figured this song out! It took me two years, but here it is
thanks to Steven Helton, the signature riff. By the way, in the last lines of the verses
the chorus, you play each of the chords in that string once except for the last for the last one.

Riff:

```
e|-----  
B|-----  
G|-----  
D|-----0-----2-----  
A|--2--4-----4--2--0-----  
E|-----3~~0-----
```

Intro: Riff x2

```
           E                     D  
Pulled in the driveway picked up the paper  
           A                     E  
Found my key and unlocked the door  
           E                     D  
I walked in felt like a stranger  
           A                     E  
Like I'd never been there before  
      C#m B      A      E      F#m  
As I wandered room to room  
      C#m B      A      E      B  
It was silent as a tomb
```

(Chorus)

```
           E  
Could've heard a tear drop  
           B  
Could've heard a heart break  
           C#m  
Never saw the flood come  
           A  
Even though I felt the rain  
           E  
Never heard a house sound  
           B  
So loud with memories  
           C#m                     A  
Where there used to be a happy home  
      C#m      B      A E B      Riff  
In the house on the corner of lonely and gone
```

E **D**
If she talked about leavin I wasn t listenin

A **E**
If she showed me a sign well I never saw

E **D**
Did she stop believin did I stop givin

A **E**
Can t put my finger on what went wrong

C#m B A E F#m
Now the quietest noise I m told

C#m B A E B
Is the sound of letting go

(Chorus x2)

END
