F dim **B**
Whenever life gets you down mrs brown

Fdim **B**
And things seem hard or tough

Fdim **B** **G#7**
and people are stupid, obnoxious or daft
C#m **F#7** **F#aug**
and you feel like youve had quite enough

B
Just remember that you re standing on a planet that s evolving

F#
And revolving at nine hundred miles an hour,

That s orbiting at nineteen miles a second, so it s reckoned,

B
A sun that is the source of all our power

The sun and you and me and all the stars that we can see

G# **C#m**
Are moving at a million miles a day
E **Fdim** **B/F#** **Cdim**
In an outer spiral arm, at forty thousand miles an hour,

C# **F#** **B**
Of the galaxy we call the Milky Way .

B

Our galaxy itself contains a hundred billion stars.

F#

It s a hundred thousand light years side to side.

It bulges in the middle, sixteen thousand light years thick,

B

But out by us, it s just three thousand light years wide.

We re thirty thousand light years from galactic central point.

G#

C#m

We go round every two hundred million years,

E

Fdim

B/F#

Cdim

And our galaxy is only one of millions of billions

C#

F#

B

In this amazing and expanding universe.

String solo: Same chords as the verse

B

The universe itself keeps on expanding and expanding

F#

In all of the directions it can whizz

As fast as it can go, at the speed of light, you know,

B

Twelve million miles a minute, and that s the fastest speed there is.

So remember, when you re feeling very small and insecure,

G#

C#m

How amazingly unlikely is your birth,

E

Fdim

B/F#

Cdim

And pray that there s intelligent life somewhere up in space,

C#

F#

B

Cause there s bugger all down here on Earth
