E.t.C.....

Full of tension
Cause you love the chase
You just need your
Own space

When the day is through
All you got to do is slowdown
When the day is here
All you got to do is slowdown

when you had enough
Of the fastest stuff to slowdown
When you see from space
Must be a mess slowdown

When the day is here
All you got to do is slowdown
When the day is here

All you got to do is slowdown

When it s hard out there
And you gonna bail, slowdown
You just seem sometimes
To forget your mind slowdown
Down down down down down
