Durante todo el verso

F **Am**
It all started like a joke*
F **Am**
Like a needle like a sting
F **Am**
Like a hand around my throat
F **Am**
Boys and girls were dancing in the rain

F **Am**
Woman came from nowhere like a sudden gush of wind
F **Am**
Nobody seen her, nobody knew her
F **Am**
She stepped in the line between the girls holding hands
F **Am**
If that is the game why don t you let me understand

F **Am**

F **Am**
I will do what ever you will do
F **Am**
I will go wherever you will go
F **Am**
I will follow you into the fall
F **Am**
And I will answer to your call

F **Am**
 If we had only looked we could have seen
F **Am**
 But the woman chose her man for one night only
F **Am**
 And whoever she chose was a helpless soul
F **Am**
 Like a needle, like a sting couldn't go to any other one

 Well in the morning, the boy lay naked in the day
C
 Light there, we knew what we knew we sat down
Am
 We danced again, she was back she danced around alone
C
 Like a needle, like a sting, her eyes held me tight

C
 Oh now you know my curse
Am
 Darling you're my prey
C
 If you think that you are safe
Am
 Then won't you let me say

F **Am**

You will do whatever I will do

F

Am

You will go wherever I will go
