You re good good good good
You re good good good you re good
Something tells me something tells me something tells me you canread my mind
Something tells me something tells me something tells me you canread my mind yea
Something tells me you can read my mind your brain is calling tome one more time

Your brain your brain your brain is calling to me one more time
Your brain your brain your brain is calling to me one more timeyour good

You push push push so good
You push you push my buttons good you push my buttons good youpush my buttons
good your good
Something tells me something tells me something tells me you canread my mind
Something tells me something tells me something tells me you canread my mind yea
Something tells me you can read my mind your brain is calling tome one more time
Said something tells me you can read my mind your brain iscalling to me one more
time

Your brain your brain your brain is calling to me one more time
Your brain your brain your brain is calling to me one more timeyour good good
good so good
