

Should The Rain Fall
Morten Harket

F#m7 **H**
And should the rain fall after this
C#sus4 **C#** **F#m7**
It ll leave no colour on the things I miss
D7M **E**
The clouds are empty now inside of me
D7M **C#m7**
And in a way somehow I am free

Another mountain there to climb
But I won t look back just to see where I turned blind
Goodbye love, you almost broke my wings
This is my goodbye to this little thing

F#m7 **H**
Well, it takes no colour by the winter snow
C#7 **F#m7**
Takes no light where the sunshine flows
Takes no damage by the stones I throw
Takes no distance out of this lonely road

Has no taste of the wine that s flowed
Takes no colour of green where the spring explodes
Takes no red where leaves fill the road
C#7
And it has no face, got no face that I know

And should the rain fall after this
It ll leave no colour on the things I miss
Goodbye love, you almost broke my wings
This is my goodbye to this little thing
