All notes are eighth notes. All four measures repeat throughout the entire song, until the end, when the last two measures repeat once. If anyone knows the real name of that B chord, I d love to know. :) Incidentally, for all you perfectionists out there, every once in a while the third and fourth notes of measure two are switched.

Lyrics:

Chloe don t know better
Chloe s just like me
only beautiful
a couple of years difference
but those lessons never learned
and you know
Chloe danced the tables
in the french quarter
she s always been given
so I can t always make her laugh
but I m proud to say
and I won t forget

time spent laying by her side
time spent laying by her side
dreams like this must die
and a dream like this must die
dreams like this must
die

[to Crown of Thorns]

Let me know if you have any corrections, or if you just plain old want
to thank me!
