

Antonia

Motion City Soundtrack

She makes a lot of abstract art
She haggles for the cheapest price
She never orders take out food before ten o'clock at night
She's really into snowmobiles
She owns a lot of nice flashlights
She cares for all the stupid cats that never found their way home
She shaves her legs with Ginsu knives
She quotes a lot of Annie Hall
She misplaced her virginity back in 1995

Prechorus:

She's what's keeping me alive
She's the pizza of my eye
Without her near me I would not survive

Chorus:

It gets cold when she's not around
I float until I sink and I'm swallowed up
It's so cold when she's not around
I wait for her to come home and tell me I'll be fine

She's always eating Captain Crunch

She sings a lot of Ben Folds Five
She s scared to death of cobra snakes
Just like Indiana Jones

She tells the dumbest knock-knock jokes
She drinks a lot of Chardonnay
She hates the way I comb my hair

Prechorus:

But she married me last June
She was the bride, I was the groom
I cried a lot and then we spooned
Without her in my life I would be doomed

Chorus:

It gets cold when she s not around
I float until I sink and I m swallowed up
It s so cold when she s not around
I wait for her to come home and tell me I ll be fine
Tell me I ll be fine

She loves the smell of Christmas trees
She sneezes when she sees bright lights
She fainted on the kitchen floor
When her father passed away

Like Prechorus:

Our baby girl is due this May
And when the little lady grows up
I hope that she will be just like her mother
