God help the woman who s late for work I can t a green light flashing red
Like a superstar camptown queen who s crown I bled
Now I just ran out of aspirin for an aching head
So I guess I ll have to do it just one more time instead
My baby call me when she want a tale
My baby call me when she want a tale
My baby call me when she want a tale
She knows its right in her heart I never fail
She s a sucker
