Capo on 3rd fret

**Cadd9**        **Em7**        **Dm**  
Sweet and low and to the point

you always get your way  
**Cadd9**        **Em7**        **Dm**                    **Cadd9**        **Em7**        **Dm**  
but I ve long run out on any thoughts and words to fill the space  
**Am**                    **Em7**                    **Dm**  
if this is suppose to be something more  
**Am**                    **Em7**                    **Dm**  
then kindly explain what all the pain is for  
**C**                    **G**                    **Dm**  
cause you wanted it you wanted it dont lie to me  
**C**                    **G**                    **Dm**

**C**                    **G**                    **Dm**

**C**                    **G**                    **Dm**  
its time that we settled the score

once and for all  
**G**        **Em7**        **Dm**                    **G**        **Em7**        **Dm**  
and i pictured myself up in your face and then i pictured myself walking away  
**G**        **E7m**        **Dm**  
but it never seems to go that way  
**G**        **E7m**        **Dm**  
thats so much easier than what i ve got to say

**Am**                    **Em7**                    **Dm**  
if this is suppose to be something more  
**Am**                    **Em7**                    **Dm**  
then kindly explain what all the pain is for  
**C**                    **G**                    **Dm**  
cause you wanted it you wanted it dont lie to me  
**C**                    **G**                    **Dm**  
don t act like i wanted it more  
**C**                    **G**                    **Dm**
