Cold night, strange dreams  
**G**    **C/F**                    **G/ Am** **G**    **C**  
Memory stuck like glue  
**F**                    **Am**  
Her face, her voice  
**G**    **F**    **G/ Am** **G**    **C**  
Sail across the seas with you  
**F**                    **G/Am** **G**                    **G/C**  
Can you hear    all the angels?

**F/C/F**

**C**                    **Am**    **Am/G/Am**  
When you feel like you re out there on your own  
**C**                    **F**    **F/C/F**  
Know there is someone watching over you  
**C**                    **Am**    **Am/G/Am**  
When out at sea, feels love can let go  
**C**                    **F**    **F/C/F**  
Oh sailor, we will blow the wind right  
**C**    **Am**    **Am/G/Am**  
But if you die out there, tearing you into two  
**C**                    **Am**    **Am/G/Am**  
I hope you know that you could sail right on  
**C**                    **F**    **F/C/F**  
I hope you know you got the ocean blue.

No sound worse than silence  
A curse that grows  
Big words kept in  
Whispers of dreams untold  
Just don t fight all the angels

When you feel like you re out there on your own  
Know there is someone watching over you  
When out at sea, feels love can let go  
Oh sailor, we will blow the wind right  
But if you die out there, tearing you into two  
I hope you know that you could sail right on  
I hope you know you got the ocean blue

When you feel like you re out there on your own

Know there is someone watching over you  
When out at sea, feels love can let go  
Oh sailor, we will blow the wind right  
But if you die out there, tearing you into two  
I hope you know that you could sail right on  
I hope you know you got the ocean blue

When you feel like you re out there on your own  
Know there is someone watching over you  
When out at sea, feels love can let go  
Oh sailor, we will blow the wind right  
But if you die out there, breaking you into two  
I hope you know that you could sail right on  
I hope you know you got the ocean blue
