My Fish Ran Away Mr Seley My Fish Ran Away By: Tom Seley This is a song about a fish named Rufus and his quest for freedom D Α My fish ran away My fish ran away Rufus and I were the best of friends I fed him ev-e-ry day…ev-e-ry day D Living alone had me searchin' for a boarder G So I bought him one day for three dollarsâ€|and a quarter I walked out the pet store on a bright shiny summer morning G And then he left me on a cold dark day without warning…take warning! D Α My fish ran away My fish ran away Rufus and I were the best of friends I fed him ev-e-ry day…ev-e-ry day D G Α I donâ \in TM even know why he wanted to go [What could have possibly possessed him to go] D I gave him everything that a fish could want…He even told me so We used to talk over breakfast, talk a little more over lunch Chew the fat, chitter chat, talk about this and that and then such and such D Α My fish ran away My fish ran away Rufus and I were the best of friends I fed him ev-e-ry day…ev-e-ry day!

The yearning for freedom strikes deep in all of our hearts Saying farewell to the ones we love must be the hardest part

He could have at least left a note for me to find Now Iâ \in ^Mll never know what happened to that good friend of mine (All I know isâ \in |)

Maybe you can help me with this next part

I have sneaking suspicion that Rufus is out there somewhere And that if we just let him know that heâ \in TMs welcome back at any time The fishbowl is waiting on the counter and weâ \in TMVe got some food for him in a half-full thing of fish food (thatâ \in TMs not too far past itâ \in TMS expiration date).

That maybe, just maybe, if he knows that we all miss him very much $He\hat{a}\in M$ return to the fish bowl on the counter and I can bring him to the class and he can

the class pet. Weâ \in ^mll make him the class pet. Weâ \in ^md even make him the class president.

make him the President. Rufus for president!!!

Repeat after me:

Rufus come back

Rufus come back

Swim it on back

Swim it on back

Take a train if you need to Take a train if you need to

We really wanna see you

We really wanna see you

Sincerely: Yeah, I think it's gonna work.
