

Departure Mt. Desolation

I do not take credit for tabbing this song, but I love it so I put it on here.
Enjoy!

[Verse I]

A E F#m
I can sense departure in the air
D A E
Now it s only the past that we share
A E F#m
Divided at a parting of the road
D A E
Where I could ride on or lighten the load

[Chorus I]

D A
I ve been dreaming of a town
E F#m D
Where the lost and found and wrong way round are bound
E A
For departure
D A E F#m
I ve been comfortably numb but a change is gonna come
D
Like a storm
E A
Driving down through the streets
E C#
from mount Desolation s peak
D E A
To make you pure for departure
F#m D A
Uhhh for departure

[Verse II]

A E F#m
Lover we have fought and we have laughed
D A E
At every obstacle thrown in our path
A E F#m
The things have gotta change before I crack
D A E
Before I get so lost I can t get back

[Chorus II]

D **A**
I ve been dreaming of a town
E **F#m** **D**
Where the lost and found and wrong way round are bound
E **A**
For departure
D **A**
I woke up at the mouth
E **F#m** **D**
Of a river in the south of this land
E **A**
Where the tide and the stones
E **C#**
Strip the troubles from your bones
D
And make you glad
E **A**
Of departure

[Bridge]

E **E**
I ll treasure til I m dead
Bm **A**
Everything we have said and done
E
For the voice in my head is telling me
A
I d best be moving on
F#m **D**
Cause the decent folk don t want me
E **A**
Everywhere my missteps haunt me
F#m **D**
But the fears that always stalked me
E
Seem to fade away

[Chorus II]

D **A**
When I start dreaming of a town
E **F#m** **D**
Where the lost and found and wrong way round are bound
E **A**
For departure
D **A**
I woke up at the mouth
E **F#m** **D**

Of a river in the south of this land

E A

Where the tide and the stones

E C#

Strip the troubles from your bones

D

And make you glad

E A

Of departure

E A

Where the tide and the stones

E C#

Strip the troubles from your bones

D

And make you glad

E A

Of departure

[Outro]

D A

The death of love, the death of love

E A

It s nothing to be scared of

D E A

It s just a light switching off
