So lord send me down

With a miracle to perform

Orphan of the storm

She d lived there before  
When she was using  
Now she s standing on  
The same old street again

Yeah that hurricane  
It blew her back to Houston  
Had to give into  
The devil s howling wind

(Chorus)

Now somewhere down the line  
There must be salvation  
She thought it through  
20 years ago  
But sin spoke  
A constant invitation  
It was in her veins  
And wouldn t let her go

(Chorus 2x)
