

## Fall Into Sleep

Mudvayne

The original song starts with a Cm. So you can play it with a capo in the 8th fret.

Vers:

**Em**

Dreams of earthquakes  
Dreams of hurricanes  
Dreams of pouring rain

**C G**

Dreams of tidal waves...to wash us all away

**Em**

Dreams of guns blazed  
Dreams of fire rage  
Dreams of swollen graves

**C G**

Dreams of hollow pain

**Em**

All gone

**Em**

No more fallen  
No more enemy  
No more casualty  
No more dream

Refrain:

**Em**

Fall into sleep

**C G**

Fall into me

I have a dream

But nobody cares

Nobody wants to listen

Fall into sleep

Fall into me

Hang on to a dream that nobody wants

Nobody cares anymore

Vers (see above):

Dreams of mourning grief  
Dreams of disbelief  
Dreams of tragedy  
Dreams of our disease...to take us all away  
Dreams of fidelity  
Dreams of inner peace  
Dreams of loyalty

Dreams of unity  
All gone  
All gone

Refrain:

Fall into sleep  
Fall into me  
I have a dream  
But nobody cares  
Nobody wants to listen

Fall into sleep  
Fall into me  
Hang on to a dream that nobody wants  
Nobody cares anymore

**Am Em**

The angels are injured

**Am**

Fall with broken burning wings

**Em**

Are we dead inside

**Am**

Are we blind

**Em**

We can't keep moving forward

**Am**

Backwards with closed eyes

**Em**

We're losing sight

**Em**

All lost inside

**Em**

No more fallen

No more enemy

Refrain:

Fall into sleep  
Fall into me  
I have a dream  
But nobody cares  
Nobody wants to listen

Fall into sleep  
Fall into me  
Hang on to a dream that nobody wants  
Nobody cares  
Nobody wants  
Nobody cares anymore

All gone

All gone

All gone

All gone
