Verse 1:

```

      C          Em7
Love was kind, for a time
      G          F          C
Now just aches, and it makes me blind
      C          Em7
This mirrors holds my eyes too bright
      G          F          C
That I can't see the others in my life

```

```

      C          Em7
We too young and heads too strong
      G          F          C
To bear the weight of these lover's eyes
      C          Em7
Cuz I feel numb beneath your tongue
      G          F          C
Beneath the curse of these lover's eyes.

```

```

      F          C          G          C
But do not ask the price I pay, I must live with my quiet rage
      F          C          G          C
Tame the ghosts in my head that run wild and wish me dead
      F          C
Should you shake my ash to the wind
      G          C
Lord forget all of my sins
      F          C          G          C
Oh let me die where I lie beneath the curse of my lover's eyes

```

Break 3x: C F

Verse 2:

```

      C          Em7
Cuz there's no drink or drug I've tried
      G          F          C
To rid the curse of these lover's eyes
      C          Em7

```

And I feel numb beneath your tongue

                          G                  F                  C  
Your strength just makes me... feel less strong

                  F                          C                          G                          C  
But do not ask the price I pay, I must live with my quiet rage

                  F                          C                          G                          C  
Tame the ghosts in my head that run wild and wish me dead

                  F                          C  
Should you shake my ash to the wind

                  G                          C  
Lord forget all of my sins

                  F                          C                          G                          C  
Oh let me die where I lie beneath the curse of my lover's eyes

Break 3x: C F

Bridge 2x:

                  C                          G                  C  
But I walk slow, I walk slow

                  Am                          F                  C  
Take my hand, help me on my way.

Instrumental 4x: C G C Am F C

Bridge 2x:

But I walk slow, I walk slow

                  Am                          F                  C  
Take my hand, help me on my way.

Outro 2x: C C G C
