A|-----2-----|
E|-----|
```

**G#**                    **C#**                    **G#**  
Don t let me darken your door  
                         **C#**                    **Fm**  
Its not what I came here for  
                         **G#maj9**                    **G#** **G#6** **G#**  
No it s not what I came here for

**G#**                                    **C#**                    **G#**  
And I won t hear you cry when I m gone  
                         **C#**                    **Fm**  
I won t know if I m doing you wrong  
                         **G#maj9**                    **G#** **G#6** **G#**  
I never know if I m doing you wrong

**G#**                    **C#**                    **G#**  
A constant reminder of where I can find her  
                         **C#**                    **Fm**  
A light that might give up the way  
                         **G#maj9**  
Is all that I m asking for  
                         **G#**                    **C#**  
Without her I m lost  
**G#**                    **G#maj9**                    **G#**  
Oh my love don t fade away

**G#**                                    **C#**                    **G#**  
So watch the world tear us apart  
                         **C#**                    **Fm**  
A stoic mind and a bleeding heart  
                         **G#maj9**                    **G#** **G#6** **G#**  
You never see my bleeding heart

**G#**                                    **C#**                    **G#**  
And your lights always shining on  
                         **C#**                    **Fm**  
And I ve been travelling oh so long  
                         **G#maj9**                    **G#** **G#6** **G#**  
I ve been travelling oh so long

**G#**                    **C#**                    **G#**  
A constant reminder of where I can find her  
                         **C#**                    **Fm**  
A light that might give up the way  
                         **G#maj9**  
Is all that I m asking for

**G#** **C#**  
Without her I m lost  
**G#** **G#maj9** **G#**  
Oh my love don t fade away  
  
**G#maj9** **G#**  
Oh my love don t fade away
