[Verse]

```
D                G                D
Roll away your stone I will roll away mine
D                G                D
Together we can see what we will find
D                G                D
Don t leave me alone at this time
A                G                D
For I am afraid of what I will discover inside
```

D

[Verse]

```
D                G                D
You told me that I would find a hole
D                G                D
Within the fragile substance of my soul
D                G                D
And I have filled this void with things unreal
A                G                D
And all the while my character it steals
```

[Chorus]

```
Bm                G                D
Darkness is a harsh term don t you think
G                A                D
Yet it dominates the things I see
```

[Verse]

D **G** **D**
It seems that all my bridges have been burned
D **G** **D**
But you say That s exactly how this grace thing works
D **G** **D**
It s not the long walk home that will change this heart
A **G** **D**
But the welcome I receive with every start

[Chorus] x2

Bm **G** **D**
Darkness is a harsh term don t you think
G **A** **D**
Yet it dominates the things I see
